ABSTRACT

This report contains the responses of the constituent institutions of the State University of New York to library questionnaires distributed by the Department of Health, Education, and Welfare, and by the New York State Education Department, for Fall 1978 and Fall 1979. Included in the statistical tables are data on library collections, staff, and operating expenditures for each institution. Developmental areas covered are library loans, transactions, hours of service, and mean salary of full-time library staff. Additional summary tables include available trend data for Fall 1977 through Fall 1979. Enrollments for each college and university are provided for the years surveyed, in order that the statistical data may be reviewed in relation to user demand for library services. Similar reports concerning academic library statistics for earlier years are cited at the end of the report in a list of publications by the Central Staff Office of Institutional Research and Analytical Studies. PREFACE

This report consists of the responses of the constituent institutions of the State University of New York to the library questionnaires of the Education Division of the U.S. Department of Health, Education and Welfare and the New York State Education Department, for Fall 1978 and Fall 1979.

This report includes detailed data on Library Collection, Library Staff, Library Operating Expenditures, Developmental Areas: Library Loans, Transactions and Hours, and Mean Salary of Full-time Library Staff for Fall 1977 and Fall 1979. Additional summary tables are presented which include available trend data for Fall 1977 through Fall 1979.

In order that these data may be reviewed in relation to user demand for library services, the enrollments for Fall 1978 and Fall 1979 are provided. Similar data concerning Academic Library Statistics were published earlier for 1967 through 1970, Fall 1972 and Fall 1975 and Fall 1976 and Fall 1977. These reports are available at all State University of New York libraries (see Publications List, page 65).

The efforts of the Central Staff statistical group of Mr. Roy Spoor, Mrs. Elda Gorden and Ms. Susan Bossoni are particularly noted as well as the typing staff of Mrs. Doreen DeCrescenzo, Mrs. Dorothy Jegier and Mrs. Peggy Sluus. Mrs. Vikki Mazzone assisted by mailing the initial surveys and following up to ensure their timely submission. The participation of campus library and institutional research personnel are gratefully acknowledged.

INTRODUCTION

This report consists of data from the Fall 1978 and Fall 1979 library questionnaires. The reader is cautioned against making any specific inter-institutional comparisons. Concise and uniform collections of these data are still in the process of development on both the state and federal levels.

Definitions of Terms[a]

Included below are some of the terms used in this report. The definitions are derived from those given on the survey instruments.

Academic library - an organized collection of printed, microfilm and audiovisual materials which; is administered as one or more units, is located in one or more designated places and makes materials (printed, microfilm, audiovisual) necessary equipment and services of its staff accessible to the college community.

Librarians - staff members who perform work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from the mechanical or clerical aspect.

Other Professional staff - staff members who, though not librarians, are in positions normally requiring at least a bachelor's degree (e.g., curators, archivists, computer specialists, information and system specialists, subject bibliographers, media specialists, etc.).

Developmental Areas - includes information on circulation of materials to users, reference and directional contacts between staff and users of the library and hours and days of operation. (This section represents a new data collection focus on utilization of materials, services and facilities. The reader of this report is advised to examine this data well before forming any conclusions.)

Circulation to users - the number of transactions of all materials charged out to library users by members of the library staff.

Interlibrary loans - the number of items provided to and received from other libraries or library agencies in response to a request.

Reference transaction - informational contact per typical week that involves the use, recommendation, interpretation or instruction in the use of one or more information sources or knowledge of such sources by members of the library staff.

Directional transaction - informational contacts per typical week that facilitate the use of the library in which the contact occurs, and its environs.

[a]All definitions are excerpted from: Department of Health, Education and Welfare, Higher Education General Information Survey (HEGIS), College and University Libraries, Fall 1979.

Organization of this Report

PART ONE

This section of the report contains data reported on the Fall 1978 surveys. Tables in this section include data on: library collection, full-time and part-time staff, operating expenditures, loan transactions and the official credit course enrollment for Fall 1978. Data are arranged by institution.

PART TWO

This section of the report contains data reported on the Fall 1979 surveys. Tables in this section include data on: library collection, additions to the collection, full-time and part-time staff, operating expenditures, developmental areas, mean salary of full-time staff and the official credit course enrollment for Fall 1979. Data are arranged by institution and/or type of institution.

PART THREE

This section of the report contains five tables of trend data. Data from the years 1976-1977 have been aggregated and are included in this section. Although there was an increase reported in total library operating expenditures between 1976-77and 1978-79, the effects of rising inflation have been felt strongly in the libraries of the State University of New York.

[a]Includes expenditures for books, periodicals, microforms, and audiovisual materials.

[b]The total expenditures reported for each institution may not equal the sum of the individual categories due to rounding of expenditures to the nearest thousand dollars.

[c]Several institutions did not report data but rather listed the data as not available.

[d]Fringe benefits are not part of the library operating budgets, the data reported here are estimated.
